## HAVING OUR SAY

Many in the Gas Fest community support the short-medium term use of LNG/LBG/LSM as an important step on maritime's decarbonisation pathway. Let's workshop the key messages (based on facts) we need to communicate to the wider community.

**OUTCOME:** Report produced & published by SGMF on behalf of Gas Fest community

0900 → 1030  
Workshop 3

1500 → 1630  
Workshop 4

**TUE

## REGULATING AMMONIA

What don't we know about the unfolding regulatory framework but wish we did? What would be on our wishlist to IMO? Who are the other regulators we need to consider? What do ports need to accept ammonia?

15 minute scene setter followed by group discussion.

**OUTCOME:** Collated FAQs to be produced and distributed
